## REACH GLOBAL INDIA PVT. LTD.

Redefining standards in the Healthcare Industry

Reach Global India Pvt. Ltd. is a reputed name in the Healthcare industry for product quality, availability and technical support with best-in-class service. Over the years, Reach Global has consistently kept itself abreast of the latest technologies and stayed ahead of the curve in the industry.

We believe in offering one-stop solution to the customer. Reach Global India Pvt. Ltd. always do their best to achieve 'value for the money' products, services by maintaining operations cost effective and at the same time by keeping in mind customer requirements towards increasing compliance by keeping 'customer at centre'. Through our well spread of extended arm network across PAN India and Global, we try to remain closer to customer.

With a commitment to deliver 'Your Infection Guard', Reach Global India Pvt. Ltd. is pillared on the values of high quality, transparent dealings and flawless distribution to stay at the forefront of meeting each and every requirement of the Healthcare industry in India and overseas.

## CAPABILITIES

- CE Certified Sterilization packaging product
- EN ISO 13485 certified and IMDR compliant state-of-the-art manufacturing facility
- ISO- 8 Certified cleanroom environment
- USFDA approved safety Products
- In-house production & In-stock product availability
- Dedicated warehouse management system

## VISION

While retaining our current reputation of "your infection guard" Our vision is to become 'leading manufacturer and supplier' of barrier packaging and associated products for controlled area.

## MISSION

Our Sterilization packaging products, Protective clothing and supplementary products are targeted to cater the needs of 'Healthcare segment' for their CSSD, Production, Quality Control & Assurance sections. We aim to support their needs by offering suitable products manufactured at 'state-of-the art' facility with desire to maintain the 'best availability'

## OUR VALUES

### BELIEF

Our strong belief is our people and we work by taking ownership to deliver our promises persistently

### FUTURISTIC

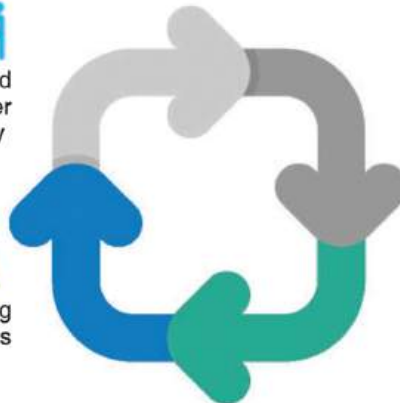

We plan ourselves by targeting long term and sustainable success

### UNIFY

We encourage and challenge each other with respect to achieve our common objective with fun and by helping each other unified

### UNDERSTANDING

We are open and have courage to try new and learn from our mistakes. we get happiness in developing partnership with our customer by rising understanding of small things to offer a solution

## Medical Grade Reel

Medical grade sterilization reels allow sterilization of packaging contents while maintaining sterility until the package is opened. Ensuring storage, handling and transportation delivery without any cross contamination

- Manufactured using virgin medical grade imported paper in compliant with ISO111607-1
- Triple line sealing makes it easy to peel
- Wide range of standard sizes with flexibility to offer custom made sizes
- Tinted transparent, reinforced multilayer co-polymer PET/CPP film
- Excellent steam permeability and microbial barrier properties
- Recommended for light weight products not having sharp edges

*\*Sharp object must have covers to avoid punctures*

## Hypak® Reel

Hypak® — a metamaterial made from unique flash-spun technology. It's made from Nonwoven-Spunbond HDPE material.

- Allows exchange of air & gaseous sterilant during sterilization & acts as a barrier after sterilization
- Acts as a selective barrier membrane, do not allow any virus, bacteria & microbe to pass through
- Polymeric composition is non-toxic and harmless, does not degrade upon exposure to various sterilization gases or high temperatures
- Provides minimum particle generation while opening healthcare devices, preventing contamination with the fibers
- Hypak material is in compliant with ISO11607-1

## HDPE Reel

Nonwoven-Spunbond HDPE widely preferred for its outstanding strength, durability & tear resistance

- Excellent bacterial barrier properties against, bacteria micro organism & their spores
- Puncture resistant and high tear resistant
- Excellent seal and aseptic presentation
- Clear and accurate indicator color transition
- Safe to use for heavy weight articles
- Provides less particle generation while opening healthcare devices, preventing contamination with the fibers
- Recommended for Steam & ETO

# STERILIZATION PACKAGING

## Wrap Sheets SMMS

SMS & SMMS are made with layers of spunbound & meltblown overlapping each other

- Single use sheets, recommended for heavy and bulky products
- Excellent water-repellent material
- Smart Packaging for convenient usage
- Offers high tensile strength
- In compliant with ISO11607-1

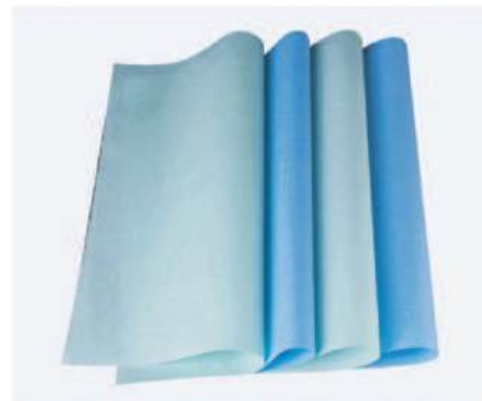

**Customized sizes available in 35 GSM, 43 GSM, 60 GSM**

## Wrap Sheets Crepe

Medical grade crepe paper enables high resistance and excellent drapability for packs to be sterilized. It is water resistant and works as the perfect barrier against contamination .

- Ecofriendly widely used & accepted packaging material.
- Soft, fabrics provide most secure packaging
- High-quality light weight material
- Smart packaging for convenient usage
- Wrap sheets crepe are processed from the direct virgin pulp of tree
- In compliant with ISO11607-1
- Recommended for light weight products not having sharp edges

# CHEMICAL INDICATOR STRIP

Chemical Indicators are the devices which verifies and confirms the sterilization cycle meets all the critical parameters during sterilization process.

- Monitors critical cycle parameters of steam sterilization
- Precise, irreversible and sharp process indicator color change
- Laminated for durability
- Smart & compact packaging
- 100% lead and heavy metal free indicator inks
- Self adhesive strips
- ISO 11140-1 compliant

# STERILITY MONITORING

## Sterilization Steam Indicator Tape

ORO provides the accurate solution for safe sterile monitoring of sterilization packages using these indicator tapes. These are semi-crepe & nonhazardous tapes available for Steam sterilization methods. The sharp indicators inks give a precise color change when meeting the prescribed sterilization method. The strong adhesive provides a firm & secure sealing keeping the integrity of the package intact, but gives a comfortable & clean peeling leaving no residues behind while unpacking the package in aseptic area.

- High quality non-toxic adhesive
- Compatible to use over SMS wrap sheets, crepe sheets paper & film
- Available in 19mm & 25mm width with 50m length

Code	RSMSIT
Type	Steam
Pkg	48 Pcs/Ctn

## Process Indicator Label

ORO 3-line type-1 process indicator label on exposure to the sterilization process, helping to differentiate between processed and unprocessed loads

- 100% lead and heavy metal free indicator inks
- Precise & sharp process indicator colour change
- High quality non toxic adhesive
- Packaging 1 roll x 520 nos labels
- EN ISO 11140-1 compliant

Code	RPILS
Type	Steam
Pkg	60 Rolls/Ctn

*\*For Label Gun please contact ORO sales representative*

# SAFETY WEAR

## Shoe Cover

- The ORO universal size Shoe Cover made of Non-Woven or LDPE Fabric.
- It is water resistant, anti-static & Anti-Skid.
- The shoe Cover gives great comfort for long hours working with great comfort & extreme hygiene.

CODE	PRODUCT NAME	PACKAGING	
RSHCN	SHOE COVER NON-WOVEN	100 Pcs / Bag	28 Bag / Ctn
RSHCL	SHOE COVER LDPE	100 Pcs / Bag	50 Bag / Ctn

## SMS Jacket

SMS Jackets are lightweight, breathable protective garments made from Spunbond-Meltblown-Spunbond material. They provide excellent barrier protection against fluids and contaminants while ensuring comfort and durability, making them ideal for healthcare use.

- Knitted cuff & caw for comfort and complete enclosure
- Soft breathable & fluid resistant fabric assuring all day protection
- Pockets & snap closure

CODE	SIZES	PACKAGING
RJSB	BLUE SMALL, MEDIUM , LARGE	10 Pcs / Bag, 10 Bags / Ctn

## Surgeon Cap

The disposable surgical caps are meant to be used by doctors and nurses while conducting surgeries. ORO caps are manufactured using optimum quality fabrics, which gives great comfort & highly breathable. Soft fabric with smooth texture makes the caps light weighted, Backside elastic for easy size adjustment.

CODE	PRODUCT NAME	TYPE	PACKAGING
RSCNW	SURGEON CAP	BLUE	100 Pcs / Bag

## Bouffant Cap

ORO's bouffant caps provide the perfect fit to provide full hair coverage and to stop cross-contamination by hair. These caps are highly breathable, light weight and antistatic with an elegant look.

CODE	PRODUCT NAME	TYPE	PACKAGING
RBCS18B, RBCS21B	BOUFFANT CAP BLUE	STRIP 18" & 21"	100 Pcs / Bag
RBCS18W, RBCS21W	BOUFFANT CAP WHITE	STRIP 18" & 21"	100 Pcs / Bag

# SAFETY WEAR

## SMS Labcoat

ORO's Lab Coats are considered as elegant, professional wear, which also give better protection. The soft, breathable and fluid-resistant material offers matchless comfort.

- Made of non-woven SMS
- Knitted cuff & collar for comfort and complete enclosure
- Soft breathable & fluid resistant fabric assuring all day protection
- Pockets & snap closure
- Available sizes- S,M,L, XL, XXL

CODE	SIZE	PACKAGING
RLCSB	S, M, L, XL, XXL	100 Pcs / Bag

\*Customized sizes available on demand

## Isolation & Reinforce Gowns

The non-woven isolation gowns are highly breathable providing best protection

- Excellent fluid resistant nonwoven fabric
- High microbial barrier
- Great breathability giving all day comfort
- Ultimate protection against dirt & dry particulates
- Ideal for sterile area usage

CODE	RIGR	RIG	PKG
TYPE	REINFORCED STERILE	ISOLATION GOWN	10 PCS / Bag

Colors available

\*Please check for MOQ of colors except blue

# SAFETY WEAR

## Face Mask

ORO non-absorbent & non-irritating masks remains cool on the skin providing ultimate comfort

- Fluid Resistant mask
- Adjustable nose strip
- Soft ear loop for comfortable wear
- TYPE II IR mask conforming to EN14683:2019+AC:2019
- $\geq 98.4\%$  BFE, Superior Melt blown
- Ear loop & Tie-on variants available
- Available in 3PLY & 4PLY

\*Colour available for 3 Ply & 4 Ply

## Disposable Coverall

Disposable Coverall is designed to cover the entire body and avoid contaminations in the cleanroom environment and process carried out in the cleanroom. Single use disposable coverall act as a barrier for cleanroom contamination by human activities.

- Suitable for controlled environment
- Pre-sterile for quick and easy access
- Made of breathable PP+PE Non-Woven Fabric
- EN13795-2 complaint

*\*For details contact ORO sales representative*

## Reusable Coverall

Reusable Coverall plays key role in the contamination control of clean room environment. Human is the sole source of contamination in clean room environments apart from the material. Human skin carries various types of microorganisms like Bacteria, Fungal spores and viruses which can be carried with the scale flax and contaminate the clean room environment. ORO Reusable Coverall are manufactured by using 98% Polyester and 2% carbon Fibers, which have antistatic properties. Reusable Coverall are designed and packed in such a way that aseptic operations can be fulfilled. 3 Piece Reusable coverall covers complete body from top to toe and avoid the contaminations through particles shading in the cleanroom. ORO Reusable Coverall are breathable to achieve comfortable operations.
